## Did You Know?

Florida has the ONLY state park system in the entire nation thrice awarded the Gold Medal of Excellence by its national peer group.

Florida's state park system consists of 161 parks and 10 trails on 788,982 acres. They include 100 miles of beaches and more than 1,600 miles of multi-use trails.

Florida state parks have over 200 cabins and more than 3,500 campsites.

Activities range from birding and boating, camping and canoeing, hiking and horse riding to museums and reenactments and swimming and star gazing—and much, much more.

In 2013, more than 25 million visitors were served and a record 1.3 million volunteer hours were contributed.

Support Florida's State Parks by joining Friends of Florida State Parks, by volunteering at one of the state parks near you or just by visiting and enjoying everything they have to offer.
